

**PipeHeat-10** is a self-regulating heating cable with a plug, of **10 W/m** output, and an Adflex (polyolefin) overjacket. **PipeHeat-10** can be installed directly on a pipe's surface or inserted into a pipe through a metal fitting otherwise.

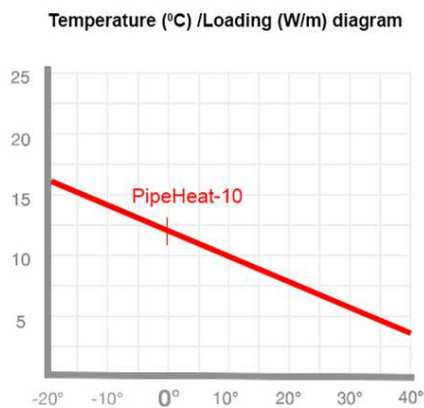

**PLUG and PLAY.** **PipeHeat-10** is designed for a direct connection: just plug it into a socket. When the temperature gets below 5°C, plug in the cable, or install a temperature control system, to save your time and money. The wide range of **PipeHeat-10** cables serves your choice for a proper length and power output that stops pipes from freezing.

Properties of heating cable:

- Self-regulating
- Special food-safe overjacket
- Small dimensions

### TECHNICAL DATA

Output	10 W/m
Type	Self-regulating
Rated voltage	230V AC
Cable dimensions	7.9x5.6 mm
Connection cable	1.5m with plug
Overjacket	Food-safe (Adflex)
Min. bending radius	35 mm
Max. withstanding temperature	+65°C
Max. operating temperature	+65°C
Min. installation temperature	-30°C
Protection class	IP67
Cable colour	Violet

### PRODUCT LIST

Type	Cable length (m)	Output (W)	Stock code
PipeHeat-10 with a plug	1	10	33761001
PipeHeat-10 with a plug	2	20	33761002
PipeHeat-10 with a plug	3	30	33761003
PipeHeat-10 with a plug	4	40	33761004
PipeHeat-10 with a plug	5	50	33761005
PipeHeat-10 with a plug	6	60	33761006
PipeHeat-10 with a plug	7	70	33761007
PipeHeat-10 with a plug	8	80	33761008
PipeHeat-10 with a plug	9	90	33761009
PipeHeat-10 with a plug	10	100	33761010
PipeHeat-10 with a plug	11	110	33761011
PipeHeat-10 with a plug	12	120	33761012
PipeHeat-10 with a plug	15	150	33761015
PipeHeat-10 with a plug	17	170	33761017
PipeHeat-10 with a plug	20	200	33761020
PipeHeat-10 with a plug	22	220	33761030
