Description

The 6/7-module 100 mm center-to-center appliance box can accommodate up to 7 Italian standard appliances or 3 multi-standard sockets. The large internal volume allows for the installation of any type of appliance. The box is composed of three assembled parts: the lower part, which snaps onto the trunking and the wall with 4 screws, and serves as an insulating base and a grid separating the various circuits. The upper part is specially shaped to accommodate the appliance mounting frames. The trunking cover, in addition to its protective function, gives the whole a harmonious and elegant shape.

Etim

GROUP EG000006 - Installation ducts for wall and ceiling

CLASS EC000079 - Appliance box for skirting duct
