Description

The 3-module 83.5 mm center-to-center appliance box can be used to install up to 3 Italian standard appliances or 1 multi-standard socket. The large internal volume allows for the installation of any appliance. The box is composed of three assembled parts: the lower part, which snaps onto the trunking and the wall with 4 screws, and serves as an insulating base and a grid separating the various circuits. The upper part is specially shaped to accommodate the appliance mounting frames. The trunking cover, in addition to its protective function, gives the whole a harmonious and elegant shape.
