Norms

EN 50085-1 EN 50085-2-1

Description

The 83.5 mm center-to-center - 3-module appliance box can be used for installing up to 3 Italian standard appliances. With a blank cover, it can be used as a junction box.

The item is composed of four assembled parts: the lower part, which snaps onto the trunking and the wall with 4 screws, serves as an insulating base and a grid separating the various circuits. The upper part is shaped to accommodate the appliance mounting frames. The trunking cover, in addition to providing protection, gives the whole a harmonious and elegant shape. The integrated end cap allows the trunking to be interrupted without the need for an additional end cap.

Etim

GROUP EG000006 - Installation ducts for wall and ceiling

CLASS EC000079 - Appliance box for skirting duct

Degree of protection (IP)	IP40	Mounting direction	Horizontal	Material	Plastic
